

# SOLUTION ARCHITECTURE

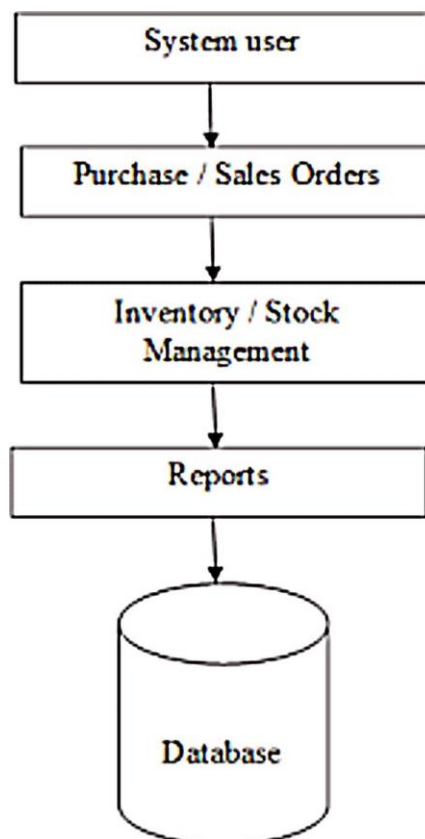

Team Lead 1: Kaviyambikai P

Team Member 2: Karthick N

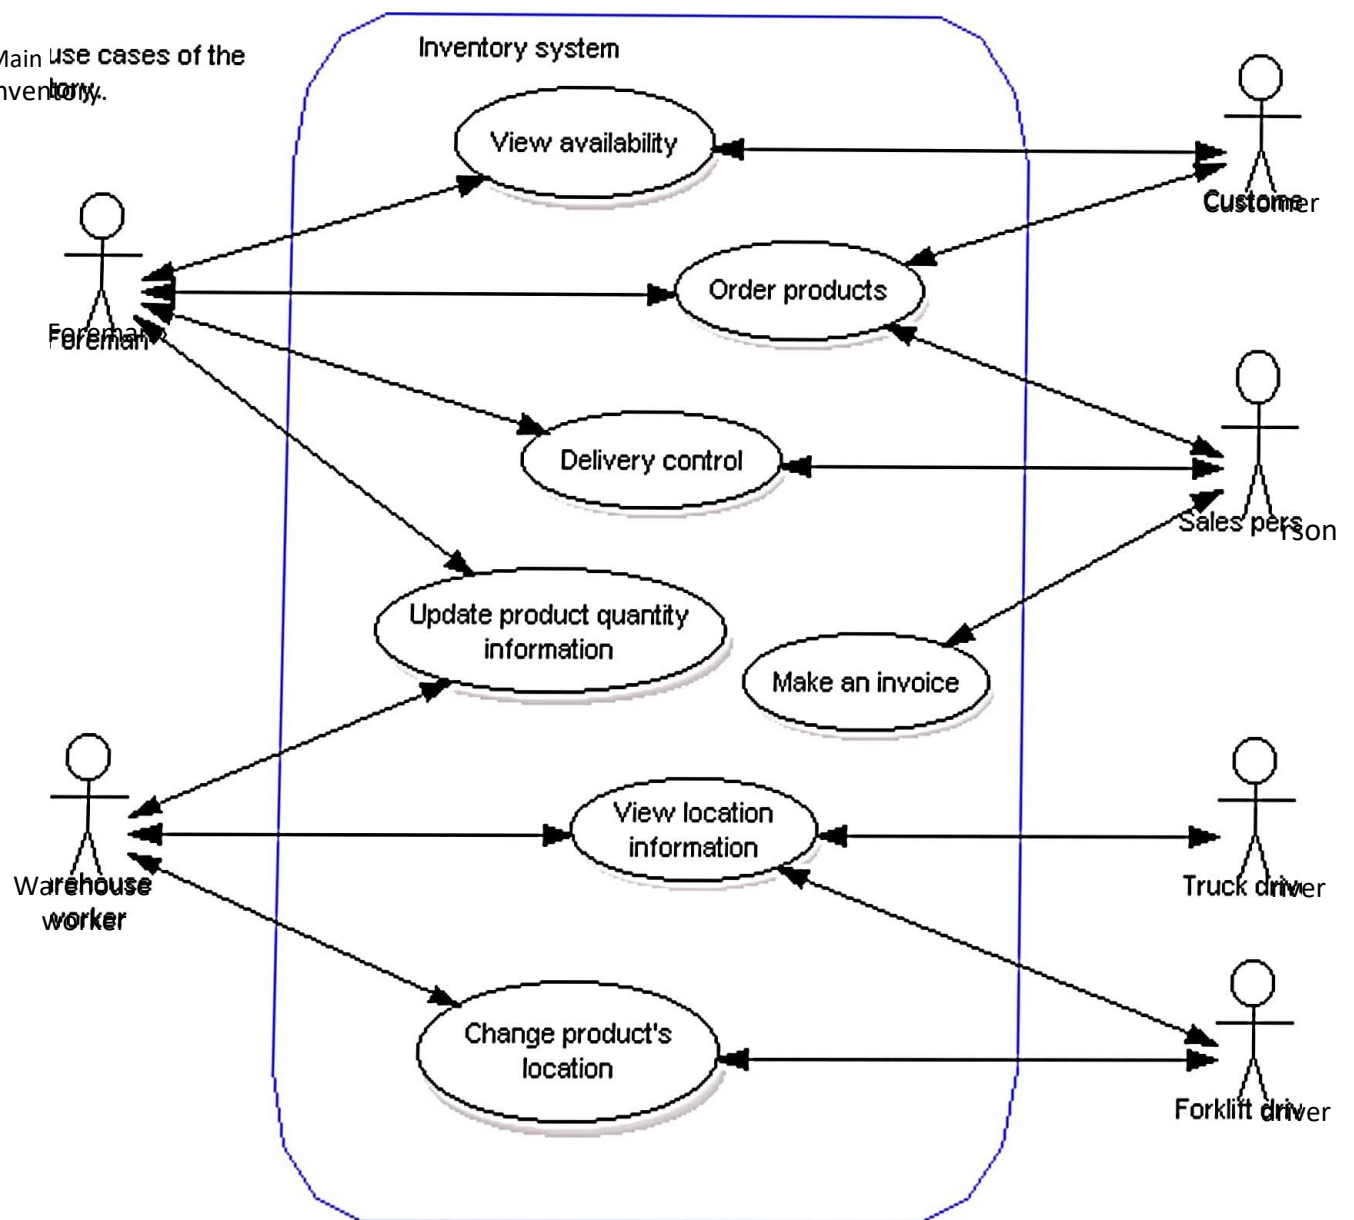

There was no an insufficient solution available in the many companies during these days. Every process was based on paperwork, human fault rate was high, the process and the tracing the inventory losses were not possible, and there were no efficient logging systems.

After the computer age, every process is started to be integrated t into electronic environment. And now we have qualified technology to implement new solutions to these problems.

- Example - Solution Architecture Diagram:

Main use cases of the inventory system.
